

FT2K

2 KW FM TRANSMITTER

The FT2K FM transmitter is designed to provide more reliable FM transmitters using the extremely rugged LDMOS power transistor for the FM broadcast market.

FT2K consists of a 25W digital exciter (FTC25), 2000W FM amplifier (FA2K) and a cabinet.

Main Features

- Direct to channel digital exciter with built in RDS encoder
- Very Efficient LDMOS Amplifier
- Excellent audio performance
- Measurement and display of the transmitter's working parameters
- High Reliability Use Of Microstrip Technology
- Seven Selectable Complete Set-up Ready For Use N+1 System
- Automatic start/stop for air conditioner
- Event logs can be seen on display or printed out with date&time of event

Options

- GSM/GPRS Modem for internet connection
- Remote Control Via Internet (TCP/IP, SNMP)

FT2K

2 KW FM TRANSMITTER

Technical Parameters		
COMPOSITION	Exciter Amplifier	FTC25, 25W FM Exciter FA2K, 2KW FM Amplifier
GENERALDATA	RF Output Connector Output Power Range Operating Band Dimensions:W - H - D Weight RF Power Stage Technology Automatic Power RF Control Overall Output Power RF Stability Cooling System Air outlet RS232/RS485 Points of measure N+1 Redundancy System Automatic Change Over Unit Automatic Aircondition Control Humidity Control Event Log AC Voltage & Current Protection	7/8 0-2000W 87.5-108.0 MHz 52 - 40 - 80cm (7U RackUnit) 61 kg LDMOS Stabilized output power value on the set value ±0.1 dB Forced air-cooling On the rear. Cooling flow 2200/2400 m3/h (depending on environment) 2xRS485 (RJ45), 1xRS232 (DB9). RS232 only for printer. RS485 for communication with other devices RF Sample Available for max. 7+1 Available via relay contacts of the amplifier Available via relay contacts of the amplifier Available to see the humidity ratio and run the air condition automatically Last 100 events in LCD menu, 26 events via remote connection Available
